

Parking notice

Construction continues in the conversion of Creighton University Medical Center into residential and retail space. Currently, dental patients can **park in our main parking lot on the NE corner of 30th and Webster and walk down the new ADA compliant sidewalk to the front entrance of the School.**

Handicapped parking and a drop off and pick up zone for patients is open near the main entrance.

We would ask that you drive with caution as you attempt to make drop offs or pickups near the front of the building due to a slightly narrowed lane and potential traffic traveling back up the hill.
